INHERITED SKILL

SON OF JUSTICE HARLAN TO BE PORTO

Laws of the Island In an Uncertain eds Side by Side Cause Confusion. New Official an Attorney of Ability. In view of the fact that whatever will be the form of government finally decided on for Porto Rico that island will for a long time be under the direct control of the United States, the question of the law and courts of the island is one of the utmost importance The present condition of the law is by no means satisfactory. The act prowiding for a civil government for Porto Rico passed last April provided that all laws of the country not in conflict with those of the United States should continue in force until altered or modi-Red by the legislative authority provid-laws of Spain, many of them based on mediæval usage, are still in force. Unenestionably, however, they will be of the International Air Engine comrevised within a very short time, for the act creates a commission for that

A Remedy For the Evil.

How the President of the International Air Engine Company Saw Justice Done to His Workmen.

"I've found a way to prevent favor-

itism in my factory," said the president

with him at the club, both of them being manufacturers, looked interested. "In the old days," he went on, "when every little shop manufactured its own goods, the proprietor had at most a box with a slit in the top of it. Above ouple of apprentices. He knew them well, of course, and watched them every day at their work. If one of them got a good idea, he was at once given credit for it. But under present onditions such a thing is not possible There are 1,600 men in my factory. I don't know half of them by sight. It is impossible that I should. If one of these men gets a good idea or makes a

are stamped out of sheet metal by a punch press at the rate of 50 a minute. Ever since we started making engines these pieces have then been turned over to the men on the filing job, who filed three little notches in each piece with a hand file. When we started making our engines, these little notches were the close working parts

by hand with great care. "One day a man on the file job got an idea. He knew that the pieces he was filing were no longer the close torney general. To this responsible po-altion the president has just appointed working parts of the machine. He was written by the court poet and wondered why the punch press fixtures bears a date in a "year of the Hegira." James Shanklin Harlan, a son of Jus- were not changed so that the little tice Harlan of the United States su-preme court. Last spring, when the time with the rest of the pieces. He resident was seeking men to carry on didn't stop to think that perhaps if he the governmental work in Porto Rico. made such a suggestion the nine men to have been braver than Tsau-Tsau
